

The key is what you **absorb**.

**Diamond Tree** brings you  
abundance of **minerals**  
your body has been thirsty for...

Mineral deficiency is believed to be the number one unidentified cause of body imbalance, disease, and failure to assimilate nutrients into the system.

**Intestinal Health is  
the Key to Longevity**

MORE THAN 80% OF ALL PEOPLE IN NORTH AMERICA ARE CARRYING AROUND FROM 6 TO 25 POUNDS OF UNDIGESTED WASTE IN THEIR COLON AND SMALL INTESTINES.

*Dr. Michio Kushi & Macrobiotics*  
"I selected over 50 kinds of whole foods based on the **macrobiotic theory**, placing an emphasis on **intestinal absorption of vitamins and minerals.**"

Start your day with **Gratitude** and witness  
as it improves your overall health.

As many as 90% of all challenges to human health may be caused by the oxidation in our food and water.

Possible diseases relating to oxidation:

- aging, cancer, diabetes, hardening of arteries, hypertension
- myocardial infarction, stroke, cataract, chronic joint rheumatism
- collagen disease, atrophic dermatitis, duodenal ulcer, asthma

**Patented Enzyme Skincare Technology**

Accelerate your own cell renewal process  
and reveal healthier, younger-looking skin.

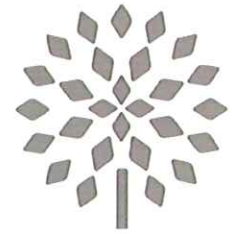

Dr. Ho-young Park is a world-renowned authority on biotechnology. After receiving his doctorate from Seoul National University and becoming director of the Korean Research Institute of Bioscience and Biotechnology, Dr. Park now lectures worldwide. Dr. Park has discovered and continues to research applications for the powerful protease enzyme Arazyme.

Are **YOU** Doing something  
about your **DRY SKIN?**

Although only about a tenth of an inch thick, your skin performs a number of essential functions, including protecting you from viruses, bacteria and environmental assaults, maintaining adequate hydration, and helping regulate body temperature.
